Kursvorschlag für das Schuljahr 2024/25

Titel:

The Beauty of the Written Word

Beschreibung:

“A book is a gift you can open again and again.” (G. Keillor)

So let's create your very own gift!

In this course we will write: from 6 word stories to Haikus, Tiny Tales, poems, short stories, longer stories, recipes, scripts, speeches, graphic novels ... if you can dream it, you can write it! And in the end you will have a collection of your best works in book format (paper and digital) to open again and again ...

We will look at international famous authors and their works to get inspired; we will work with AI tools and Apps to help with grammar, spelling, synonyms, stylistic devices and more; we will go into nature – or town – to see, feel, touch, smell and taste in order to stimulate our senses and trigger our creativity. Writing is a process that can be taught. Creativity is like a muscle that needs to be trained.

Editing each others' texts will happen after reading other peoples' texts, gently giving feedback and suggesting changes – not to criticize but to enhance, grow and improve the personal style of writing. By the end of this journey you will not only have enhanced your English skills, but you will be a storyteller, a poet, an editor, a performer – a writer.

You are the master of your own thoughts, the captain of your own words, the creator of your own narrative! So bring sticky notes, paper, a journal or a tablet, pens and pencils - and start writing!
